	Website	http://www.fujiks.com/			
	Branches/ Agencies	Japan: Headquarter and other 5 offices (Kanagawa, Tokyo, Chiba), Group companies (Fukuoka, Kitakyushu, Kagoshima) in Kyushu Overseas: None			
Business Activities, Messages and Others	Business Activities	<p>Our company provides construction services such as washing, peeling and cutting using water jets.</p> <ul style="list-style-type: none"> · Cleaning of plumbing in buildings, including condominiums · Factory facility cleaning, paint removal from tanks · Concrete removal for repairs and earthquake resistant reinforcement work for concrete structures such as highways, tunnel, etc. 			
	Messages/ Other	<p>Water jet operation requires very high skill. It takes about ten years to acquire the necessary skills. If we can automate this washing technology or otherwise reduce the necessary human resources, we think this technology can be disseminated in the East Asian region as well. We are looking for companies familiar with sensors and AI.</p>			
	Examples of Services	<ul style="list-style-type: none"> · Upward distribution technique Pipe cleaning method · "Fuji Jet Construction Method" Patent: Super high-rise apartment drain pipe cleaning · Mist Oasis series "Pipe wash plus" Patent: Disinfecting/deodorizing cleaner
